

HS-63T MULTI BORING MACHINE

ABM SEMI-AUTOMATIC MULTI-BORING MACHINE WITH ONE LEFT SIDE HORIZONTAL AND TWO BOTTOM VERTICAL BORING HEADS, EACH WITH 21 SPINDLES

Features

- Fabricated steel body and frame of machine.
- Pneumatic drilling movement of boring heads.
- Overhead beam to support pneumatic work clamps.
- Mechanical digital readouts to position each head.
- Electrical control panel on left/front of machine.
- Pneumatic work stops mounted on aluminium fence.
- Both horizontal heads can swivel 90° to bore in-line.
- Boring cycle activated by foot pedal control.
- Quick release chucks on boring spindles.
- Open right hand end of machine to take large panels.

Technical Data:

Centre distance of spindles on boring heads	32 mm
Maximum drilling depth of each head	75 mm
Boring head motors	3 x 2 hp
Maximum length, left fence to second vertical head	1100 mm
Nett weight of machine	620 kgs
Dimensions of machine	2000 mm x 1260 mm x 1300 mm
