

ML-392

10" OVER & UNDER PLAINER / THICKNESSER

Features

- 254mm (10") SURFACE PLANER & THICKNESSER
- Ground cast iron work tables for accurate work.
- Large 3-knife circular cutterblock for superior finishing.
- Large aluminium surface planer guide fence.
- Fence quickly removed when thicknessing is required.
- Work tables tilt up to allow access to thicknesser.
- Dust chute for surface planer swings easily over top of cutterhead into position for thicknessing.
- Safety limit switch allows machine to start only if guard is in correct position.
- Sheet steel machine body provides stability when working.

Technical Data:

Maximum planning width (both operations)	250 mm
Maximum depth of thicknesser	190 mm
Maximum cutting depth in one pass	5 mm
Feed speed of thicknesser	8 metres / min
Overall length of surface planer tables	1050 mm
Diameter of circular cutterblock	75 mm
Diameter of dust exhaust hood	100 mm
Single phase drive motor	1.5 hp
Nett weight of machine	148 kgs
