

SMM

FRAMERS CORNER FOOT PEDAL OPERATED MITRE GUILLOTINE

Features

- Flawlessly smooth, precision mitering of timber components by two knives.
- Premium hardened knives set at 45 degrees to left and right on a cast iron precision machined knife block.
- Knife block slides up and down in V-slides for cutting stroke.
- Heavy duty foot pedal mechanism allows good leverage for heavy cuts and long operating life.
- Rigid steel floor stand supports cast iron machine and tables.
- Full safety guarding around knife block and on fence.
- For wide mouldings, stepped cuts are performed by sliding knife block horizontally backwards and forwards by hand lever.
- Automatic rebate supports to prevent splitting of picture frame rebates.
- Right hand support table with mitred lines for sliding measuring system and longer extension with floor stand.
- Left hand short extension table to support mouldings being fed into machine.

Technical Data:

Maximum cutting width	100mm
Maximum cutting height	160mm
Maximum standard length measurement	1500mm
Swivelling range of cast iron fence	45 to 90 degrees
