BATES BC[®] BOOTHCOATING GLUE RELEASE

BATES BC is a temporary water-based, emulsion coating that allows surfaces to repel glue. it protects equipment from dried glue mess and reduces cleaning time. Regular application prevents harsh cleaning that damages equipment.

APPLICATION, COVERAGE & USE

For Non-porous surfaces (do not use on walkways - product is slippery)

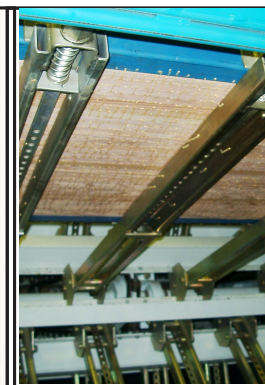

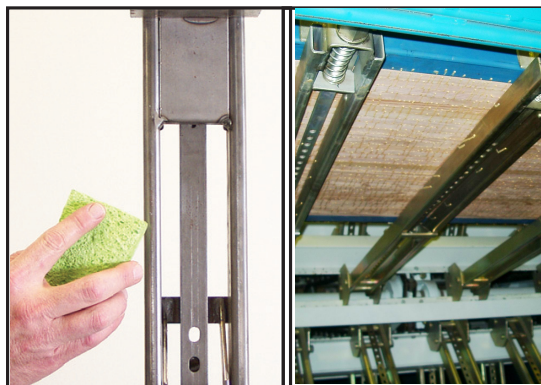

For cold gluing applications - Up to 100°F/38°C

Easily brushed, wiped or sprayed on

Easily scrape off glue mess

Can be used in areas with
moving parts and
tight tolerances

Re-apply after clean-up
at the end of day

PROPERTIES & STORAGE

BATES BC is a stable, wax and oil emulsion that contains no silicones.

BATES BC should be kept in temperature controlled areas
between 50° and 90°F (10°C - 30°C).

Do not expose to freezing temperatures.

Appearance: Viscous, white or creamy liquid
that sets-up to transparent film

Viscosity: LVT Brookfield 3750 cps.

Specific Gravity: 0.96

AVAILABLE QUANTITIES

2 litre container

20 Litre container
